

Senior Projects

Fall 2020

Individual Weekly Report

NAME: Andy Nguyen TEAM: Alien Alphabets

Period covered by this report: From Nov 3, 2020 to Nov 10, 2020

Describe briefly this week's activities (if any) and estimate the amount of time devoted to each one. MAKE SURE YOU SAVE A COPY OF EACH REPORT.

1. Research Activities 3 Hours

(e.g., investigating API for xyz, searching the web for abc., ...)

Explain:

- Researching resistors and breadboards
- The physical layout of mini breadboards
- How the transfer of power goes through the mini boards
- Connecting button to Raspberry Pi
- Connecting buttons to each other

2. Out of class time meeting(s) 4 Hours

Explain:

- Team meeting for coding, circuit wiring, and testing
- Found the final correct size for display screen
- Research on wiring
- Connected together a physical power button and passed on the code to Software team to implement power button
 - Khoi was able to implement code in under 10 minutes
- Helped model design add-ons for toy power, learning mode, and quiz mode button

3. Documentation Activities .5 Hours (other than code documentation)

(e.g., producing requirements document, test plan documentation, project related presentation, etc.)

Explain:

- Documented team activities during meeting

4. Design Activities .5 Hours

(e.g. Producing System Architecture/Design, etc.)

Explain:

- Helped John with model design for additional buttons

5. Coding Activities (including code documentation) 0 Hours

Explain:

6. Testing Activities 1 Hours

Explain:

- Testing letter and text images

7. Other Project Related Activities .5 Hours

Explain:

- Created sample hologram images with different image sizes
 - Letter: "A" and "B"

- Text: “Alien Alphabets”

8. Other Non-project Related Activities 3 Hours

(e.g., reading for/preparing/**non-project related** in-class presentation/report)

Explain:

- Computer Security lab work

9. My project related planned activities for the coming week are:

- Create new images with final display screen size
 - A, B, and C images
- Create sample audio files
- Connect multiple mini breadboards together to create a ‘chain’ of buttons
- Product testing
